## 👤 PROFILE

Passionate frontend developer with expertise in HTML, CSS, JavaScript, and React.js. Committed to user-centric design, continuous learning, and delivering exceptional experiences.

## 🎓 EDUCATION

### Software Development, SAIL Innovation lab (Tech talent)

February 2023 – August 2023 | Ikorodu, Nigeria

- Completed a comprehensive curriculum covering HTML5, CSS3, Javascript, React, Tailwind CSS, responsive design, Git, and frontend build tools.
- Developed practical skills through hands-on projects including a personal portfolio website, Netflix app clone, and dynamic single-page applications.
- Gained valuable mentorship and guidance equipping me with the expertise needed to excel in the web development and design.

### Software Development, NIIT Institute 🔗

2022 – 2022 | Ikorodu, Nigeria

- Global IT training and education centre with presence in over 44 countries including India, USA, UK, Australia, Japan, France, Germany, and Nigeria.

### Higher Diploma, GlobalTECHS 🔗

2020 | Lagos, Nigeria

- I was awarded a Higher Diploma in System Engineering/Laptop Tech

## 🧠 SKILLS

HTML, CSS, JS

ReactJS

Tailwind CSS

Mongo DB

Knowledge of APIs

Testing and Debugging

Basic Back-End Knowledge

Continuous Learning

Innovative

Collaborative

## 📁 PROJECTS

### Hang-Man, A Game Application 🔗

- Collaboratively designed and developed a word-guessing game using HTML, CSS and JAVASCRIPT fostering strong group coordination and communication to ensure seamless integration of the game.

### **Matrixx-Tip Calculator**

- My team, Matrix at SAIL was assigned to build a tip calculator. as a Front-End Developer, I translated conceptual ideas into tangible designs, meticulously selecting color schemes, typography, and layout elements to create an aesthetically appealing and user-friendly interface.

### **Savvy-Music Player, A Music app** [↗](#)

- My contribution was instrumental in creating an engaging and intuitive front-end interface that contributed significantly to the app's overall success.

### **Netflix, Netflix Landing Page Clone**

- Netflix landing page examples using HTML, CSS and Javascript

### **QR-code Generator** [↗](#)

An Application used to generate functional QR codes for any Website

### **IP Checker** [↗](#)

An Application used to check IP addresses

### **Anagram Checker** [↗](#)

An Application used to check for anagrams
